

# MOBILE

# STARLINK

## FLAT HIGH PERFORMANCE

Starlink provides high-speed network coverage of up to 220 Mbps and is powered by the largest network of low-earth orbit (LEO) satellites in the world. Its sleek and durable antenna allows for complete visibility and efficient management over a sizable fleet of vehicles in any kind of weather. Starlink provides data-intensive mobile activities for any vehicles without compromising its high-speed capacity.

LEO satellite connectivity

High-speed connectivity

Low-latency technology

Connectivity on-the-go

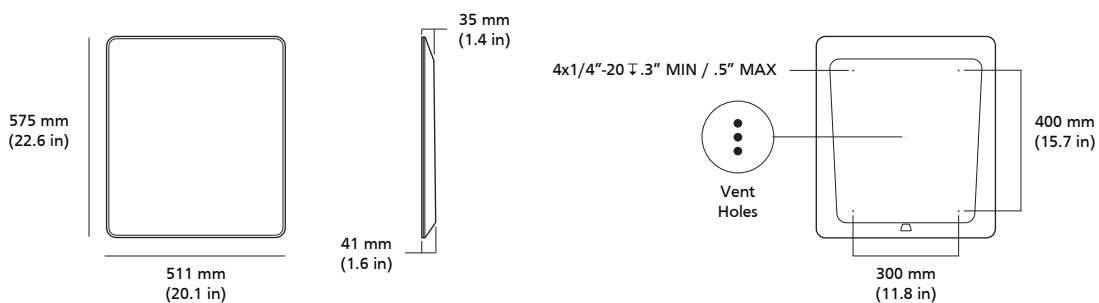

Compact antenna

Simple installation

Designed for mobility applications and challenging environments. With a wide field of view and enhanced GPS capabilities, it can connect to more satellites, allowing for consistent connectivity while on the go. Currently the only designated dish for in-motion use in approved countries.
