APPLICATIONS

Ideal for power users and fixed-site business applications, this solution offers installation flexibility with extended cable lengths and the capability to directly connect third-party routers and custom setups. While it excels in a variety of settings, it's designed for optimal performance in more controlled environments.

MOUNTS & ACCESSORIES

The Enterprise Kit includes a choice of mounts between the Standard Pipe Adapter, Standard Wall Mount, or Standard Pivot Mount. Additionally, accessories such as cable routing kits, longer cable lengths, and access points are available.
