APPLICATIONS

The Starlink Mini is a compact, portable kit that easily fits in a backpack, delivering high-speed, low-latency internet on the go. It's ideal for remote workers in isolated areas, providing reliable connectivity while away from traditional networks. Best suited for moderate environments, the Starlink Mini is a convenient solution for staying connected in even the most remote locations.

MOUNTS & ACCESSORIES

The Starlink Mini Kit comes with a kickstand and pipe adapter in the box which accommodate a variety of setups. Additional mounts and accessories are available to purchase.
