

# Project Management & Crew Housing Mobilization

Turnkey Deployment. Managed Sites. Built for Long-Term Projects

## End-to-End Project Deployment

EnerStar Solutions manages every phase of remote site deployment — from initial location scouting and site assessment through crew housing mobilization, ongoing project support, and eventual demobilization. With over 10,000+ site jobs serviced across North America, we deliver complete project management and turnkey remote site solutions that keep your teams comfortable and your project on schedule.

### Location Scouting

- Site feasibility assessments
- Access & terrain evaluation
- Proximity to project sites
- Permitting & compliance
- Community coordination

### Crew Housing Mobilization

- Custom route planning
- DOT & state permitting
- Heavy haul transport
- On-site setup & installation
- Full utility connections

### Full Deployment Services

- Professional site management
- 24/7 operations support
- Ongoing maintenance
- Centralized corporate billing
- Scalable crew capacity

### COMPREHENSIVE TURNKEY JOBSITE SUPPORT

Accommodations • Communications • Water & Sewer • Power • Lighting • Logistics • Matting

*One trusted partner. No multi-vendor hassles. Simplified operations for remote & complex projects.*

## Housing Layouts

**Executive Complex:** 2 bedrooms, 2 baths, full kitchen, dining/living area

**Double Ender:** 2 bedrooms, 2 baths, 2 kitchen/living areas — ideal for shared crew use

**3-Bedroom Complex:** 3 bedrooms, 2 baths, full kitchen, dining/living area

EnerStar's workforce housing units are designed from the ground up for long-term project deployments. Each unit features private bedrooms, full kitchens, dedicated living and dining areas, and modern bathrooms — giving your crew a genuine home-style experience, not just a place to sleep. All units are fully furnished and move-in ready, eliminating setup delays and letting your team hit the ground running from day one.

# Why Choose EnerStar?

Hotels	Standard RV Sites	<b>EnerStar Units</b>
Small rooms	Minimal comfort	<b>Full living space</b>
No kitchen	Basic setup	<b>Kitchen + living area</b>
Scattered across town	DIY management	<b>Managed environment</b>
Individual billing	Inconsistent quality	<b>Centralized corporate billing</b>
Poor long-term fit	Not designed for crews	<b>Built for project teams</b>

## EnerStar Units Ideal for:

- ✓ Wind & Solar Developments
- ✓ Data Center Constructions
- ✓ Large Infrastructure Builds
- ✓ Industrial & Energy EPC Projects

## Perfect for:

- ✓ Project Managers
- ✓ Supervisors
- ✓ Long-term Technical Staff
- ✓ Crew Leads

EnerStar workforce housing is a purpose-built alternative to hotels and RV sites, offering full living spaces, professional site management, and centralized billing for long-term EPC projects. Plan smarter, house your teams better, and schedule a private site tour to see the difference firsthand.
